Number of Uses of Public Internet Computers: **1,072**

Number of Wireless Sessions Annually: **1,454**

Website Visits Annually: **707**

## Programs Offered:

**Summer Reading Program** for Children and Adults. 24 children signed up this year plus an additional 16 participants attended other SRP events.

This summer, a patron donated many adorable stuffed animals for the children, so we had them each pick out a special animal to read to all summer, and they took it home with them before school began.

Children of the Library entered the Greater Rolfe Days Parade and also attended the Farmers Market to sell treats & a drink to coordinate with the theme of the SRP, which was Space: A Universe of Stories. This was a wonderful learning experience for them and a great way to showcase our library in the community!

**Weekly After-School Programs** for the children as well as **monthly programs** with the County Conservation for adults and children.

Our **Board Members** held their **Annual Book Sale** during Greater Rolfe Days, while our **Friends of the Library** hosted their **Annual Cinnamon Roll & Coffee Fundraiser** at the same time, plus several book talks & other programs during the year.

Our **Rolfe Readers** continue to meet monthly for their **Book Discussion**. Lately we have had more people attending this.

We Continue to host **Santa in the Library** during our Hometown Christmas.

We have the children read for a short time after school each day in order to earn the privilege of using the library owned iPads, computers, games, etc. After all, this is what the library is for 😊 and we are also teaching them to pick up after themselves each day.
